

REMARKS

Amendments to the Claims

Applicants have canceled claims 1-14 and 21-29.

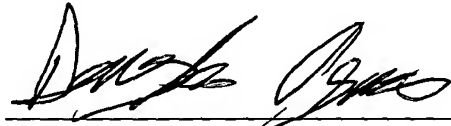

Previously, applicants had received a restriction requirement, dated January 31, 2003, with respect to the parent application (Serial No. 10/052,808) of the present invention. In response to the restriction requirement, applicants had elected to prosecute the invention of Group III, claims 21-29, in the parent application.

By canceling claims 1-14 and 21-29 in the present divisional application, applicants elect claims 15-20 (i.e., the invention of Group II in the restriction requirement of the parent application) for prosecution on the merits in this divisional application.

Conclusion

In view of the foregoing, applicants respectfully submit that the present application is in condition for allowance. An early and favorable action is earnestly requested. Applicants invite the Examiner to call the undersigned if the Examiner believes that any matters remain outstanding.

Respectfully submitted,
